

What better way to start out Spring than to get involved in planting wildflower seeds - new life which needs to be nurtured (watered, cared for...) – helping to create that better world for ALL!

FCA CLUB SPRING SEMESTER activity

- * **Locate** a small area of ground – or some pots – around the university/community
- * **Gather** some participants (young, older, class, group, etc.) who might be willing and able to get involved in the planting, taking care of, maybe even documenting the growing of your patch of wildflowers... which will sprout in all shapes & sizes, too!
- * **Purchase** the “Bee the Change” seed packets – to plant and even to have enough to just “give away” perhaps – during April – **Child Abuse Prevention Month!**
- * **Create** a little label that can be put onto the bottom of the seed packets you may want to “give away” that promote your FCA club and a message of helping to create a healthier – happier world for all!
